## Wednesday Wake up

**Guest Speaker: August 2: Theresa Mayoh, President,  
Ethos Career Management Group.**

Since 2000, Theresa and Ethos Career Management Group have provided career planning and job search services. Ethos operates three distinct programs which serve more than 6,000 clients each year. RE-45 is a five-week career planning and job search program for mature workers offered in Nanaimo. Shorter, satellite versions of the program are offered in Parksville and Duncan. Trades and Technology Program offers individuals of all ages an opportunity to re-search careers in trades and technology. This mobile program is also offered in Duncan. CARE is a collection of job search resources, including a job board, resource centre with computers, workshops on job search, work skills, and career planning, and career counselling. Ethos also offers instruction in basic computer skills, either through in-house workshops, or on-line. All services are highly professional and are free to clients.

**Guest Speaker: August 9: Michael Geslbracht  
Ecovillage, Shawnigan Lake**

OUR Ecovillage is a model demonstration community for sustainable development and community activism. The Ecovillage design can be incorporated into communities to improve our quality of life as well as the sustainability of our city. As an acronym, O.U.R stand for One United Resource which implies that we humans and the rest of nature all contribute to the world in some way or another.

### Project Amigo

Project Amigo is an independent, non-profit corporation, not part of Rotary International. The organisation works very closely with Rotary Clubs in Mexico, the United States, Canada and other countries. Most of the donations that support Project Amigo's programs and services come from Rotary Clubs and individual Rotarians. However, about 35% of Project Amigo's donors and supporters are non-Rotarians, and none of their activities are restricted to Rotarians.

The mission of Project Amigo is to enable the poor children of Colima to achieve their highest potential by providing educational opportunities, material support, enrichment activities, and medical and dental services not otherwise available to them.

Project Amigo facilitates partnerships between North American and Mexican Rotary Clubs to sponsor projects which benefit the children and their families. These projects have included building Colonia Rotaria, low-cost housing for poor families, and the installation of libraries and computer labs in children's group homes and rural schools. Many Project Amigo projects depend on the hands-on labour of volunteers from the United States and Canada.
